

THE EVENING BULLETIN.

VOLUME IX.

MAYSVILLE, KY., THURSDAY, SEPTEMBER 11, 1890.

NUMBER 248.

HAVING
JUST RETURNED

From the Eastern markets, we
are daily receiving very large ad-
ditions to our already immense
stock. We ask particular atten-
tion to our

DRESS GOODS,

which will be found complete in
Plaid, Colored and Black.

MR. C. W. DARNALL,

formerly of Hildreth & Darnall,
is now associated with us and asks
his former friends and customers
to call and see him.

Browning & Co.,

SECOND ST.

A VOICE

From the Executive Mansion.

MR. A. K. HAWKES—Dear Sir: The pantoscopic glasses you furnished me some time since give excellent satisfaction. I have tested them by use, and must say they are unequalled in clearness and brilliancy by any that I have ever worn. Respectfully, JOHN B. GORDON, Governor of Georgia.

All eyes fitted and fit guaranteed at the Drug Store of POWER & REYNOLDS, Maysville, Ky.

C. W. WARDLE,

DENTIST,

ZWEIGART'S BLOCK.

T. H. N. SMITH.
DENTIST.

Next to Bank of Maysville.

Given in the painless extraction of teeth.

DR. DENTIST C. FRANKLIN.

Dentist,

Office: Sutton Street, next
door to Postoffice.

FOR MEN ONLY!
VIENNA WEAK & STRENGTHENED
General and Local VOLUNTEER
WEEKLY. ENDEVELOPED OIL AND VITAMIN
HOT SPRINGS. EXTRACTS IN
Descriptive book, explanation and proofs enclosed, sealed free.
Address ERIE MEDICAL CO., BUFFALO, N.Y.

OPIUM
and Whiskey Habits
cured at home without
out pain. Book of par-
ticulars sent FREE.
H. M. WOOLLEY, M.D.
Atlanta, Ga. Office 104½ Whitehall St.

Very Heavy Rainfall.

Southern New York Experi-
encing a Big Flood.

CITIES PARTLY UNDER WATER.

Bridges Washed Away and Railroad
Travel Almost Entirely Suspended.
Business at a Standstill at a Number of
Places.

ELMIRA, N. Y., Sept. 11.—Nearly
three inches of rain has fallen here in
twenty-four hours, and the water, in-
creased by the streams above, has raised
the Chemung river to the danger line.
The lower parts of the city are under
water, and much damaged is apprehended.

The railroads are experiencing a great
deal of trouble. The Delaware, Lacka-
wanna and Western road is not run-
ning any trains, owing to the high
water at Canaca. The Erie is blocked
by landslides and washouts at Addi-
son and Wellsville. There is also
some trouble on that road at North Elmira.
No trains have gone west or come in from that direction for twelve
hours.

The Northern Central road has a
bridge and a long piece of track washed
out at Waterloo, where the water from
Watkins' Glen comes down in destruc-
tive force.

Several bridges and a number of stair-
ways were washed out of Watkins' Glen.

The Addison and Pennsylvania road
had a trestle washed out near Addison,
and the road is blocked.

The Erie is blocked at Wellsville,
where the storm has washed out the
tracks, as well as those of the Bradford,
Eldred and Cuba road, and the Well-
sville and Connersport line. Exhibitors
are moving cattle and goods from the
Interstate fair grounds here in anticipa-
tion of the flood.

At Canisteo.

CANISTEO, N. Y., Sept. 11.—The people
of this town were aroused at 4
o'clock yesterday morning by an alarm
which proved to be that of a flood. A
continuous, hard rain had succeeded in
raising Purdy and Bennett's creeks
which overflowed their banks, and for
the third time inside of two years. All
the south and west portion of the village
is a sea of water. Cellars are full,
walks float, gardens cove ed and a general
appearance of desolation prevails.
No particular damage is anticipated,
however, except to two or three indi-
viduals.

The Canisteo river which flows across
the north end of the village is also over
its banks, inundating that portion of
the village and causing some of the in-
habitants to move to the second stories of
their houses. The Erie road is com-
pletely blocked. All kinds of business
is at a standstill. Several bridges over
the small creeks have been washed
away. The neighboring city of Har-
rissville is also flooded, and word
comes from there that the water was
never higher and considerable damage
is expected. The towns below are also
partly under water.

At 8 o'clock last night the rain began
falling again, and should it continue
throughout the night disastrous results
are feared.

SITUATION AT ALBANY.

A Misplaced Switch Wrecks a Train,
Strikers Returning to Work.

ALBANY, Sept. 11.—A misplaced
switch at Lumber street in this city,
sent the night boat express from the
north on the Delaware and Hudson
road crashing into a freight train last
night. Very fortunately the train was
going but slowly, it having stopped a
few blocks beyond for some reason. No
lives were lost, a few persons being
thrown from their seats and bruised.

The switchman, Frank Hatch is a
Knight of Labor, who resumed his position
yesterday. He says he left his
switch for a few minutes and it was
tampered with. Both engines were
badly smashed and the passenger engine
was derailed.

John Reed, one of the train wreckers
and who is supposed to have turned
states evidence, was taken to Troy last
night and bailed up because it was inti-
mated that writ of habeas corpus had
been issued. He says he was arrested on
Saturday without a warrant and locked up in
superintendent Bissell's office. The road detectives say they
will have the other two men soon. The
strikers have applied for work in large
numbers and many were taken back.

TWO IMPORTANT SECTIONS

Provisions of Mr. Aldrich's Reciprocity
Amendment to the Tariff Bill.

WASHINGTON, Sept. 11.—Mr. Aldrich's
reciprocity amendment, as adopted by
the senate, reads:

Section 2. That with a view to secure
reciprocal trade with countries producing
the following articles, and for this purpose,
and after the first day of July, 1891,
whenever and so often as the president
shall be satisfied that the government
of any country producing and exporting
sugars, molasses, coffee, tea and bides,
raw and unrefined, or any of such articles,
imposes duties or other exactions upon
the agricultural or other products of the
United States, which, in view of the free
introduction of such sugar, molasses,
coffee, tea and bides into the United
States he may deem to be reciprocally un-
equal and unreasonable, he shall have the
power, and it shall be his duty to sus-
pend, by proclamation to that effect,
the provisions of this act relating to the free
introduction of such sugars, molasses,
coffee, tea and bides, the production of
such country, for such time as he shall
deem just, and in such case and during
such time, suspension duties shall be
levied, collected and paid upon sugar,
molasses, coffee, tea and bides, the pro-

diction of ore exported from such designated
country as follows:

All sugars not above No. 18 Dutch
standard in color shall pay duty on their
polariscope test as follows: All sugars
not above No. 18 Dutch standard in color,
all tank bottoms, cups of cane juice or
of beef juice, melada, concentrated melada,
concrete and concentrated molasses, testing
by the polariscope not above 75 degrees,
7-10 cent per pound; and for every
additional degree or fraction of a degree
shown by the polariscope test, .02 cent
per pound additional. All sugars above
No. 18 and not above No. 16 Dutch
standard in color shall be classified by the Dutch
standard in color, 1% cent per pound, and all
sugar above No. 16 and not above No. 20 Dutch
standard in color, 1% cent per pound; all sugars above No. 20 Dutch
standard in color, 2 cents per pound; molasses testing above 56 degrees, 4 cents per
gallon. Sugar drawings and sugar sweepings
shall be subject to duty either as molasses
or sugar, as the case may be, according
to polariscope test. On coffee, 8
cents per pound; on tea, 10 cents per
pound; on hides, raw or uncurled, whether
dry, salted or pickled, Angora goatskins,
raw, without the wool, manufactured,
skins skins, raw or unmanufactured, and
skins except sheepskins, with the wool
in 1/2 cents per pound.

Highest Ever Paid for a Lecture.

NEW YORK, Sept. 11.—Henry M.
Stanley, African explorer and writer, is
to lecture in the Academy of Music on
Nov. 12, for the benefit of the Brooklyn
Lunatic Asylum Hospital. The sum he will
receive for the lecture is \$3,500. The
Brooklyn lecture will be his second one
after his arrival in November, the first
being in New York. The prices of seats,
it is said, will range from \$3 to \$5, and
as the academy seats 2,216 persons it is
thought that a good profit will accrue
from the lecture. Over \$8,000 can be
received from the sale of seats. The
arrangements for the lecture are under
the direction of Camden C. Dix, Al-
bert Aumerman and R. J. Kimball.
The sum to be paid to Mr. Stanley are
said to be the highest ever paid to any
lecturer in the country.

Duties on Pork.

OTTAWA, Ont., Sept. 11.—A delega-
tion consisting of A. J. Ackhurst, of
Swift & Company, E. F. Miles, of
Armon & Company, of Chicago, and a
number of Canadian pork packers and
lumbermen, waited on the ministers of
customs and finance yesterday in refer-
ence to the duties on pork. After the
case had been presented the minister de-
cided to allow the all-sides of pork in
barrels after the head and shoulders have
been removed and running sixteen
pieces and under to the barrel, to be
admitted into Canada at one and one-
half cents per pound instead of four cents
as ruled by certain collectors.

Miners' and Mine Operators' Meeting.

ALTOONA, Pa., Sept. 11.—A meeting
of the adjourned conference of miners
and operators of the of the region com-
prising the counties of Clearfield, Centre,
Cambria, Huntington, Blair, Bedford,
Indiana and Jefferson was held
here yesterday. It was resolved to allow
a committee from each side to en-
deavor to arrange a scale satisfactory to
both. The joint committee is in session
and it is stated that the difficulties have
been amicably settled and no strike will
occur.

Shower of Fish.

CYRUS, Ill., Sept. 11.—During a shower
of rain a number of live fish fell in
various parts of the city. They were
all about four inches in length, of the sun,
perch and buffalo species. They were
stunned by contact with the earth, but
many were revived by placing in water
and are still alive. The largest number
that fell in one place were picked up at the Big Four depot and
numbered about one dozen.

Fancy Goods Store Burned.

NEW YORK, Sept. 11.—The large fancy
goods store of Stranahan Brothers &
Company, extending through the
block from One Hundred and Twenty-
fourth to One Hundred and Twenty-
fifth streets west and Third avenue, was
gutted by fire early yesterday morning.
The loss is \$70,000; insurance \$100,000.
It is believed that the watchman em-
ployed in the store was burned to death.

Horses Coming West.

BANGOR, Me., Sept. 11.—Mr. Nelson's
horses, Nelson, Medora, Red Hawk,
Cal Good, Daisy Raffe and Artist will
leave here Thursday in care of the
American Express company for Blooming-
ton, Ill., and thence through the
American association circuit. The
French syndicate has raised the offer
for Nelson to \$95,000, but Mr. Nelson
declines to sell.

Cincinnati Collision.

CINCINNATI, Sept. 11.—In a collision
at the Cincinnati Northern railroad dep-
ot last night James Howard was
instantly killed. The engineer and fire-
man jumped for their lives and escaped
with but slight injuries.

Electric Chairings Burned.

DAYTON, O., Sept. 11.—The large
factory of the Ohio Manufacturing
Company, extending from One Hundred
and Twenty-fourth to One Hundred and
Twenty-fifth streets, was gutted by fire
yesterday morning. The loss is \$15,000.

Frankfort, Ky.

FRANKFORT, Ky., Sept. 11.—The con-
stitutional convention completed its orga-
nization yesterday by the election of
minor officials. After the appointment
of committees on rules and credentials
the convention adjourned. The rules
which governed the convention of 1850
were accepted pending the preparation
of a new code.

Return of the Wheelbarrow Pedestrian.

McCONNELLSVILLE, O., Sept. 11.—Harri-
son Warner, the octogenarian pedes-
trian who left here this summer to walk
to Baltimore, Md., pushing a wheelbarrow,
returned Tuesday. He made the trip from here to Baltimore,
about 400 miles, in twenty three days.
He feels none the worse for his trip.

Strikers Still Rioting.

Critical Situation at Southamp-
ton, England.

A NUMBER OF MEN ARRESTED.

Troops Called Out, But They Cannot
Check the Disorders—Business Through-
out the Town Almost Paralyzed—Other
Foreign Disputes.

LONDON, Sept. 11.—The striking dock
laborers, sailors and firemen at Southamp-
ton still maintain a menacing attitude,
and the authorities fear that there
may be further rioting. Notwithstanding
the fact that a large force of police
from London and other places are at
Southampton for the purpose of aiding
the local authorities, further detachments
of troops have been summoned to assist in putting down any overt dem-
onstrations.

Some of the strikers have gone out in
small boats to await the arrival of incoming
steamers with the object of per-
suading their crews to join in the strike.
The admiral has been asked to assist in
preventing this move of the strikers.
Eight men were arrested for taking part
in the rioting. A mob gathered about
the mayor's residence and made threatening
demonstrations. The mayor telephoned for assistance, and a number
of soldiers were dispatched in cans to
disperse the crowd.

Seventeen more arrests of strikers for
resisting the authorities were then made.
The mob tore down the placards
containing the mayor's address, urging
the strikers to remain at their homes.
Business throughout the town is almost
paralyzed. Before charging the crowd
with bayonets the troops threatened
several times to fire, but without
making any impression.

Coming After Information.

BERLIN, Sept. 11.—Dr. Van Stephen,
imperial director of posts and tele-
graphs, intends to visit the United
States shortly for the purpose of studying
the American postal telegraph system.

Banished to Siberia.

ST. PETERSBURG, Sept. 11.—Four
prominent officers of the Russian army,
stationed at Helsingfors, Finland, in-
cluding a major general, have been
banished to Siberia for theft of govern-
ment money and other property.

Island Inundated.

VIENNA, Sept. 11.—The Island of
Schmetz, in the Danube, near Presburg,
has been inundated by the rise of the
river.

Recording Drowned Bodies.

DIEZEN, Sept. 11.—Twenty-one
corpses of persons drowned during the
floods have been found in the Elbe.

DID RIGHT TO KILL HIS WIFE.

That is the Opinion of an Aged German
Farmer at Dayton, O.

DAYTON, O., Sept. 11.—Henry Kellner,
a German, aged 65 years, shot and
killed his wife Wednesday morning. It
is a clear case of deliberate murder,
with extenuating circumstances. Mrs.
Kellner was 42 years of age, and there
had been trouble that caused a separation
and proceedings for divorce, and Kellner
gave himself up an hour later. Kellner
gave himself up and says he believes he
did right.

Murdered and Robbed.

NEW ALBANY, Ind., Sept. 11.—Joseph
Fisher, aged 74, a wealthy and reputa-
ble farmer of Harrison county, went to
Muncie Monday afternoon to pay a debt
of \$100. The man he owed the
money was absent from the town, and Mr.
Fisher started home late in the
evening with the money in his pocket.
He was found dead on the highway
nearish home Tuesday morning, his skull
crushed and the money gone. He had
been murdered and robbed. There is
no excitement, but no clue to the
murderer.

Robbed and Throwed from a Trap.

CANTON, O., Sept. 11.—William Stewart,
of Upper Sandusky, and a man named
Reeves, of Lower Sandusky, were steadi-
ng a ride in a Fort Wayne railroad
freight car last night. When the train
reached Londonville, forty traps encoun-
tered the car, assaulted

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

THURSDAY, SEPTEMBER 11, 1890.

Notice to the Democrats of Mason County.

There will be a mass convention held at Maysville court house Saturday, Sept. 13th, at 2 o'clock p.m., for choosing delegates to the Congressional convention which meets at Catlettsburg, Sept. 16th.

Thos. J. CHENOWETH,
Chairman Executive Committee.

The new constitution will, of course, be submitted to the voters for ratification, and it should be made as clear and concise as possible. It ought not take the convention such a very great while to get through with the business.

If the money that has been taken out of Maysville and invested elsewhere in the past year had been invested here at home in manufacturing enterprises the place would have been experiencing a nice healthy boom just about this time. You can't build your own city up by investing elsewhere.

SOLITARY and alone of the New England States, Maine sustains the Republican cause. Rhode Island is now in the Democratic field, and Vermont showed phenomenal Democratic gains. And the result in Maine is not so bad after all, as the Democrats increased their representation in the Legislature.

Is it Salary and Fees?

That each Commonwealth's Attorney shall receive annually a salary of \$2,500, payable monthly out of the Treasury, which shall be in lieu of all other compensation by the Commonwealth.

The above is the section of the new law giving a salary to the Commonwealth's Attorneys of the State, which went into effect July 1, 1890. It is construed by some that the attorneys are still entitled to the fees in all cases, as the new law only applied to the compensation of the Commonwealth which was \$500 per annum under the old law. It looks like a new law entirely, and we think it repeals all others on the subject.—Frankfort Argus.

State School Tax.

Hon. A. L. Peterman, until recently a prominent candidate for Superintendent of Public Instruction, is out in an interview in which he says he hopes the Constitutional convention will make no increase in the per capita paid by the State for school purposes. His theory, founded upon experience, is that Kentucky as a State already pays too much for public schools; that by so doing it furnishes each district with enough money to run a sort of school, and just enough to prevent the respective districts from raising for school purposes by special local tax the amounts they should. He, in other words, wants each school district to raise more money for itself, and to stop depending on the pitance received from the State to educate their children. He says that it works on the same principle that if somebody pays for B's education and A pays for his own that A will get the most good out of it. He says that Massachusetts, with a less per capita for public schools, has immeasurably better schools than Kentucky, because her school money is raised by districts. Texas' per capita is twice as large as Kentucky's and yet her schools are not nearly so good.

Undoubtedly Kentucky as a State has done her whole duty on the public school question. What is needed now is for the rest of the counties to follow the example set by Mason and vote a local tax in aid of the schools.

The Southern Flag.

Editor Bulletin: Would it not be in better taste, all things considered, were the Southern people to leave out the Confederate flag when they have public gatherings of any kind?

This flag has had its day, and should now be a thing of the past, as its use on such occasions only serves to perpetuate bitter feelings and memories between the sections. It would show wonderful good sense in the people of the South if they would for all time cease to make a display of this flag, and besides, it would give the people of the North a better opinion of the South's repeated asseverations of affection and loyalty not only to the stars and stripes, but also to the government under which they live. It would redound vastly to the advantage of the Southern people, too, if they would bring themselves to look at this matter in its true light, as such things only serve as handles for extremists to use against them, and gives such measures as the Force bill a semblance of justice and necessity.

They should also remember that as we have only one, and a common country, so there is, or should be at least, only one flag—the stars and stripes—and that if they desire the Northern people to forget the past, in which the Confederate flag played its part, it behoves them, in all modesty and good sense, to relegate this emblem of a bitter past to a glorious obscurity.

Bill Nye on the Newspaper Puff.

The newspaper puff is something that makes men feel bad if they don't get it. The groundwork of an ordinary newspaper puff consists of moral character and a good bank account. Writing newspaper puffs is like mixing sherry cobblers and mint juleps all through the summer months for customers and quenching your own thirst with rain water. Sometimes a man is looking for a puff and doesn't get it, then he says the paper is going down hill, and that it is in the hands of monopoly, and he would stop subscribing if he did not have to pay his bill first. Writing a newspaper puff is like taking a photograph of a homely baby. If the photograph does not represent the child with wings and halos and harps, it shows that the artist does not understand his business—if the puff does not stand out like a bold and fearless exponent of truth and morality, it shows the puffer doesn't understand human nature. It is more fun to see a man read a puff of himself than to see a man slip on an orange peel. The narrow-minded man reads it over seven or eight times, and then goes around to the different places where the paper is taken and steals what he can. The kind-hearted family man goes home and reads it to his wife and then pays up his bill on the paper. The successful business man who advertises and makes money starts immediately to find the newspaper man and speaks a word of grateful acknowledgement and encouragement. Then the two men start out of the sanctum and walk thoughtfully down the street together, and the successful business man takes sugar in his, and they both eat a clove or two, and life is sweeter, and peace settles down like a turtle dove in our hearts, and after awhile lampposts get more plentiful and everybody seems more or less intoxicated, but the hearts of those two men are filled with nameless joy, because they know when to stop and not make themselves ridiculous.

For the Farmer.

Last month's receipts of live stock at Chicago amounted to 291,443 cattle, 21,930 calves, 574,207 hogs, 185,174 sheep, and 8,081 horses; against 297,276 cattle, 19,007 calves, 237,625 hogs, 174,366 sheep, and 5,272 horses for August, 1890. This is a decrease of 2,843 cattle and an increase of 2,932 calves, 236,581 hogs, 10,898 sheep, and 2,809 horses.

The Georgetown Times says: "W. Z. Thomson is trying a new departure in curing tobacco, called the 'Snow' process. A close building 16x20 feet and basement for flues is used, patent sticks with short wires crossing them, and tier poles adjusted by windlass. The tobacco leaves are pulled from the growing stalk as each leaf approaches maturity, and 48 of them are strung on each stick and cured by artificial heat. The first cure of sand leaves, flyings and trash has been completed, and the party from Virginia in charge pronounces it a perfect success. The sand leaves (that are never saved under the ordinary method of handling) he estimates worth from \$6 to \$8, and the best of trash from \$5 to \$7.50. The second cure of the same kind is now going on, and in a few days a cure of lugs and leaf will be made."

The Constitution-Makers

There was not much done in the Constitutional Convention yesterday.

The convention concluded a Reading Clerk was needed, and Captain James E. Stone was elected to fill the position. He is one of the men defeated for Secretary.

A committee was drawn to investigate the contested election case of McChord versus Lewis from Washington County. This committee is composed of C. F. Burnham, Mercer; Judge Whittaker, Mason; S. J. Pugh, Lewis; F. A. Hopkiss, Floyd; W. H. Miller, Breckinridge; J. F. Funk, Louisville; G. H. Petrie, Todd; E. J. McDermott, Louisville; J. Proctor Knott, Marion.

The following committee on Rules was appointed: Henry D. McHenry, Chairman; Bennett H. Young, L. T. Moore, T. F. Burnham, Judge Rodes McElroy, T. H. Hines, W. E. Goehel, I. N. Spalding, Mr. Montgomery, W. H. Miller and A. J. Auxier.

The convention adjourned until 10 o'clock this morning, when, by prearrangement, an adjournment will be had till next Monday.

Here and There.

Misses Daisy and Bettie Hubbard are visiting at Lewisburg.

Mr. Ed. Hubbard is spending a few days near Manchester.

Miss Fannie Davis is visiting Miss Ida Bloomfield, of Winchester.

Mrs. Charles B. Poynitz left yesterday on a trip to New York and other points in the East.

Mrs. P. Brannon left this morning for Covington to join her husband, who is employed at the Kentucky Central shops at that place. She was accompanied by her sister, Miss Winnie Moore.

Is the result of the Maine election an endorsement of Reed's despotism or Blaine's free trade "reciprocity" views?

Those Charges Against Rev. Mr. Bickley.

Mention was made recently of the sensational charges preferred against Rev. F. T. D. Bickley, pastor of the Main Street M. E. Church at Covington. A committee consisting of Rev. A. Boreing, Presiding Elder of this district, and Revs. Robinson, Garrett, Sutton, College, Polard and Fitzgerald, is investigating the matter this week.

The Covington Commonwealth says: "The first witness called was Miss Lizzie Martin, who testified that at midnight on May 5, 1890, Brother Bickley called at her home and insisted that she should get out of bed and see him. She refused, until he insisted so she did so, and got up. It had been raining and was chilly. Mr. Bickley began to scold and then to abuse her for talking so much. He kept that up until almost 1 o'clock, when she said she had to go in the house, as her sister was in the next room sick with consumption; but he said if she went in the room he would follow her. She attempted to leave him, but he held the door so she could not shut it, and compelled her to listen to him. He told her she was under charges. On the 29th of July he said she had to take a letter of dismissal from the church or he would prefer charges against her. He did then deliver to her an insulting letter of dismissal.

Miss Lydia Luken said that she and her girls, who were employed by her, saw Brother Bickley go into Mrs. Freeman's for several months almost every day, and sometimes three and four times a day, that the community was talking about his visits, and that Mr. Bickley came to her at the oyster supper in February, 1890, and asked her about it and she told him how the people were talking. That in July he told her she would have to take her letter of dismissal. She refused and said she would not, as she had done nothing to merit such treatment, but he handed her a letter of dismissal.

Miss Walker testified to having seen Mr. Bickley go to Mrs. Freeman's in February and March daily, and the people were talking about it."

Such is the testimony the first evening of the trial. The investigation is still in progress.

The Railways.

China's solitary railroad is eighty-one miles long, and cost \$9,000 a mile. It uses American locomotives.

The earnings of the C. & O. for the month of August show an increase of \$87,485.92, as compared with those for the corresponding month of last year. The figures are:

1890.....\$726,360.06
1889.....633,741.14

Increase.....\$87,185.92

President Ingalls, of the C. & O., has placed contracts for 12 locomotives, 1,000 box cars and 500 coal cars.

Notice to Box-Renters.

All persons who made deposit with the late postmaster for keys to lock boxes, and whose keys have not been redeemed, are requested to leave their names, and state the amount due them, at this office, at once. THOMAS A. DAVIS, P. M.

— Quiet Ways are Best.

'Tis better far to join the throng
That do their duty right along;
Reluctant they to raise in ins,
Or make themselves ridiculous.
Calm and serene in heart and nerve,
Their strength is always in reserve,
And nobly stands each test;
And every day and all times,
By scenes within and scenes without,
We discern, with ne'er a doubt,
That quiet ways are best.

— The Evangelist.

CANNON & CO., of the Sutton street Laundry and Bath Rooms, are putting in additional machinery to accommodate their increased business.

CHARLEY SLACK, aged about ten years, was seized by a paralytic fit last evening near the corner of Third and Sutton, and is in a critical condition.

A PENSION attorney at Ironton, Ohio, has filed 700 applications under the new pension law. One hundred and sixty-two of his clients are Kentuckians.

MR. JAMES CULLEN, the tonsorial artist, who has been confined to his home with fever for several weeks past, is improving, and hopes soon to be out again.

THE funeral of George Dodson takes place this afternoon at 2:30 o'clock at the Church of the Nativity, Rev. D. D. Chapin officiating. Burial at Maysville Cemetery.

In its fair notes, the Paris Kentuckian says: "The Maysville band was greatly complimented by the ladies for their fine playing. At the close they very touchingly and appropriately gave 'Should old acquaintance be forgot, and never brought to mind.'"

AFTER spending several days in the city selecting and examining the latest fall and winter styles, I have returned home and am prepared to serve my customers with all the latest hats and trimmings of the coming season.

1112 M. ARCHDEACON, Market St.

OMAR LYtle, of the MAYSVILLE BULLETIN force, and wife were visiting his father, the gas manager, Saturday and Sunday. They were the most youthful couple with a child, John Lytle being three months old and the father and mother seeming in their teens.—Paris Kentuckian.

A BURGLARY was committed the other night and Captain Heflin had the guilty party "dead to rights" in less than a day after the case was placed in his hands. But out of sympathy for the boy's parents, the parties robbed refused to prosecute and the case was not pushed any further. Captain Heflin is disgusted, and says the jail ought to be thrown open and the court house closed. He says the refusal to prosecute simply encourages the boy to commit greater offenses, and also tends to lead others astray.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be excelled, and cheerfully recommend it." In 25 and 50 cent bottles for sale by Power & Reynolds.

THE FORSYTH CASE.

Particulars of the Shooting As Brought Out at the Examining Trial.

Price, the Accused, Required to Give Bond to Answer the Charge at Next Circuit Court.

The examining trial of "Boley" Price, on the charge of shooting and wounding Joe Forsyth during the Maysville fair, came off yesterday afternoon before Judge Phister.

The Commonwealth was represented by County Attorney Newell, while Hon. W. H. Wadsworth, Mr. A. A. Wadsworth and Mr. John L. Whitaker appeared for defendant. Mr. Forsyth is still suffering from the dangerous wound, but is able to go about and was present at the trial. He was the first witness and said:

"I have been living at Millersburg some time. Am Deputy Sheriff of Bourbon County—have been so for two years. I was at the Maysville fair and there saw Mr. Price for the first time. He was on the amphitheater. He came up the steps, and George Means was with him. They were talking. I was talking to Mr. Redmond. Price walked off to one side. I told Mr. Means that I did not want any further difficulty. Mr. Price had a pistol and said he would shoot 'the s—n of a b—h.' He fired almost immediately, and the shot took effect in my right breast near the nipple. Price took a post after the first shot. He fired three times."

On cross-examination by Mr. Wadsworth, witness said: "I have been in Bourbon two years. I had been living before in Texas and at Baltimore. I spent about one year in Baltimore, one year in Texas, nearly fifteen years in New Mexico and one year in Kansas. I have had some difficulties in my time, have been in number where there was shooting and have been shot a number of times."

"The shooting at the fair grounds occurred on Thursday. I came down Tuesday before. I had this pistol with me. It was loaded. Had six cartridges that I sent to Lexington for while here. I first saw Price about 5 o'clock—about five minutes after my difficulty with Mr. Means. Means and myself were at the head of the steps when we had the difficulty. I struck Means with my pistol. He was coming at me with a knife. We got to talking about some horses and Means struck me and then drew his knife. There were no ladies there. I had not spoken to any ladies or insulted them. When Price and Means came up I told Means I did not want to have further trouble with him. Price fired before I had spoken to him. After I was shot I could not see very well. I took my pistol from my right hand and fired at him with my left. We parted when the shooting commenced. Did not hear Price say: 'George, go away—don't have trouble.' I did not speak to him or shoot at him before he fired at me. I had five loads in my pistol. I carry it that way. Did not shoot at Means. Fired both times at Price."

RE-DIRECT—I never shot at a man I had not seen before, nor did I ever get behind a post to shoot at any one.

DR. OWENS testified as to the wound. There may be secondary hemorrhage yet that may result fatally. The chances are Forsyth will recover, but not entirely.

Constable James Redmond testified that he was sent for to arrest a man who had struck Mr. Means. He went up the steps. Forsyth was walking up and down the promenade, talking to himself. I told him I wanted to see him. He came over to me. Just then Means came running up with Price. Means said: "There he is." Price then came up to a post, and said something to Forsyth about shooting him. Forsyth stepped back and said shoot. Price got behind the post, I raised my arm and tried to stop Price, but he drew his pistol. Each had his pistol up and I then stepped aside. There were four shots. I could not say who fired first. Both Means and Price said something before the shooting, calling Forsyth some name.

G. W. Pollitt went up the steps with Mr. Redmond. Means came up then with his head bleeding and said: "That's the man I want and I'm going to have him." Forsyth said "keep back;" that he was "a U. S. Marshal and would shoot some of them if they did not keep back." Price, the accused, was sworn, and said: I am twenty-five years old. Was at the fair grounds, staying at Mr. Davis' booth. Was coming out of the booth door and met Means. He had blood all over his head, and said a man up there had insulted his cousin and hit him on the head. He asked me for a pistol, but I told him I didn't have any. He then went up the steps and I went to keep him out of trouble. I said to him: "George, don't have any trouble; there are too many women around." Forsyth

said: "You s—n of a b—h, you want some of it," and began to draw his pistol. He fired, George ran and I jumped behind the post. I then drew my pistol and fired twice.

George Means: I was at the fair grounds on the promenade with my cousin, Miss Means, and a Miss Kearns I invited them to come home with me and attend the fair next day. They declined and said they intended taking the Russell accommodation that was about due. They were about leaving when some man said: [The remark is not fit for publication.—Editor]. I struck him, some man ran between us and then the fellow hit me with his pistol. I went down and tried to get a pistol, but failed. I went back up after my coat and hat, and didn't expect a fuss. Price said: "Don't have any trouble." Forsyth said: "Maybe you want some of it, you s—n of a b—h." He then shot. Price got behind a post and shot back. Forsyth was twenty or thirty feet away. I left when the shooting commenced.

On cross-examination, witness said he could not identify the man he struck. He would not say positively the man he struck was the man who insulted the ladies. But he thought so. Witness admitted also that he had been drinking.

There was other testimony, but it did not differ much from what is given above. The accused was held for further trial in the Circuit Court. His bond was fixed at \$500, which he gave with his father as surety.

SAYS the Lexington Transcript: "Father Geo. C. Beeler, formerly Principal of St. Paul's Parochial School in this city, is accomplishing much good work in his present position of Assistant Pastor of the Maysville Parish. He has made himself quite popular and is well beloved by his people, who cannot but admire his pleasant, genial ways and indomitable energy in advancing the cause of education, and placing them on a higher moral plane."

The Republicans of Brown County have nominated the following ticket: Commissioner, Frank W. Thompson; Probate Judge, I. C. Yates; Prosecuting Attorney, W. D. Young; Sheriff, E. S. Moorehead; Clerk, Albert Boswell, of Aberdeen; Infirmary Director, Sam Culter; Coroner, Jacob Gross. The usual Democratic majority in Brown is slightly over 1,000. The following Executive Committee was named for the ensuing campaign: Frank W. Dunham, John Rhodes, Chas. Thompson, J. D. Gardner, Thos. Buchanan, Jr.

The Bowling Green Daily Times says: "Smith & Potter, the real estate men, have closed a trade for Mr. Albert Mitchell by which the building occupied by the Pearl saloon and Nelson's barber shop on Frozen Row, was transferred to Messrs. Worthington & Taylor. They will be given possession October 1st, and as soon as the present leases expire, will open a first-class fancy grocery unlike anything in the city."

The purchasers referred to are Mr. Vach Worthington, of Minerva, and Mr. John Taylor, who married Miss Julia Worthington.

There's nothing wonderful in Selling good shoes at a high price; Anybody can do that. The wonder is, where good shoes are sold At low prices. That's MINER'S specialty.

Now, what in the world would we be advertising for, if all we had to offer was good shoes at an extra price? You've heard about the crazy man on the tower? He grabbed a stranger and said: "Let's jump down and make ourselves famous." "Poot!" said the ready-witted stranger, "any man could jump down; let's go down and jump up."

We're not crazy.

Not crazy enough, at least, to think that you'd jump at an offer of shoes from us, when you could do just as well elsewhere. We would not expect to win your trade by selling good shoes at a big price, and we wouldn't waste money advertising that fact. Our specialty is a GOOD shoe at a LOW price.

That's where we stand alone. The fact we want to "ding" into everybody's mind is that good shoes at MINER'S cost no more than poor shoes, such as MINER don't keep—don't keep them because they won't spoil the record.

September Crop Report

Latest Information from the Agricultural Department.

CROPS ARE GREATLY INJURED.

Drouth Causes the Lowest Average in Corn Since 1881—Disappointment in the Yield of Winter Wheat—Other Dispatches from Washington.

WASHINGTON, Sept. 11.—The National crop report for September show that the injury to the corn reported last month was intensified by continuance of drouth in August until rains came to its rescue, but too late for full recovery. The average is 70 against 73 per cent. last month. It is the lowest average since 1881.

The returns of winter wheat at the time of harvesting are less favorable than those of the 1st of July. So far as threshing has progressed the results are generally disappointing. The July average was 67.2, the present 73.5. The general average of spring wheat has also been reduced from 84.2 to 39.8. The average for wheat of both kinds is 75.5. In 1888 the September average for wheat was 77. It was 73 in 1881.

The yields of spring wheat is unusually variable in the Dakotas, ranging from high yields to five bushels and less per acre. The progress of threshing will develop the extent of these differences.

On the coast, from New Jersey to Maryland, and in North Carolina, Tennessee, Kentucky, Arkansas and Missouri, as also in northern New England and Florida, there is improvement in corn since Aug. 1.

In Michigan, Wisconsin, and Indiana, and in Georgia, Alabama, Louisiana, and Texas, the condition is unchanged. A decline has occurred in New York, Ohio, Illinois, and in all the northwestern states and some others of less importance. The crop is late in the eastern states, requiring maturing weather through September. It is also late and variable in development in New York and Pennsylvania.

The Atlantic coast states return relative high conditions impaired locally by the effects of midsummer drouths and latter storms. In Tennessee and Mississippi, Arkansas and Texas the drouth was more or less severe from the 20th of June. The record shows the crop was maturing and ripe before rains came. The Ohio valley and the Missouri valley report protracted drouth and low condition.

While the rains of the last two weeks of August have been beneficial nearly everywhere they have not always restored the losses of the first half of the month. In the bottom lands where growth was maintained, the recent rainfall will make a good crop, while the drier upland were beyond recovery.

The lowest condition is in Kansas, though some of the eastern counties make good return. The Dakotas and Nebraska are little higher. The crop is late and will require as much time to mature in the latitude of 40 degrees as for the earlier varieties grown on the line of 42 degrees.

Rye yields less than was expected, as the condition as reported is reduced to 85.4.

The September condition of oats is the lowest ever reported, having fallen from 70.1 in August to 64.3. The rate of yield will be the smallest in twenty years.

The condition of barley is not very seriously lowered, from 82.8 to 78.6.

Buckwheat has fully maintained its August condition, the average being 90.5 against 90.1.

The figures for potatoes have fallen since Aug. 1, from 73.3 to 65.7, the lowest average ever reported, that of 1897, being 77.

Tobacco has improved materially during the month, the average being 82.4, much better than in the August report, but lower than July condition.

The reported percentage for fattening swine is 57 per cent., and their condition P3.7.

Senate and House Proceedings.

WASHINGTON, Sept. 11.—In the senate yesterday concluding speeches on the tariff bill were made by Senators Hoar, Hiscott, Turpie, Vest, Vance, Gibson, and Jones of Nevada. At 5:29 a vote was taken and the bill was passed, 40 to 29, a strict party vote, Mr. Ennis being the only senator who was recorded on the measure either by vote or by pair.

The house spent the entire day filibustering on the question of approving the journal, the object of the obstructionists to prevent consideration of the Langston-Venable election case.

A New Line of Steamers.

WASHINGTON, Sept. 11.—Robert W. Turner, United States consul at Cadiz, Spain, has informed the state department of the establishment of a line of steamers between Cadiz and New York. The steamers sail under the Portuguese flags, carry freight and passengers, and are registered at from 1,300 to 2,000 tons. The steamers will sail every forty days.

NATIONAL BANK ROBBED.

Two Told to the Teller and Book Keeper, the Told to the Swag.

DETROIT, Sept. 11.—A special to The News from Bay City says: A few minutes before noon yesterday three men entered the second National Bank, and two of them went to the teller and book keeper and engaged them in conversation about banking business.

The third slipped away to the bookkeeper's desk and stole a package of bills amounting to \$4,100, which was ready for shipment.

After the departure of the trio the robbery was discovered, and the police notified immediately, but they have not yet captured the robbers.

The second National bank is located on the most prominent corner in the city.

Tenth District of Indiana.

MONON, Ind., Sept. 11.—David H. Patton, of Newton county, was nominated for congress here yesterday by the Democrats of the Tenth congressional district.

INDIANA REPUBLICANS.

Delegates to the State Convention Nominate a Complete Ticket.

INDIANAPOLIS, Sept. 11.—Chairman Michael, of the state central committee, called the Republican state convention to order yesterday. Nearly all of the 1,320 delegates were present. Hon. R. W. Thompson, ex-secretary of the navy, was chosen permanent chairman.

The platform denounces trusts and combines; champion's cheaper transportation; endorses Governor Hovey's administration; demands that the benevolent institutions be placed above the level of party politics; denounces mobs; deprecates the influence of the saloon in politics; denounces as unpatriotic the condemnation of juries of courts by party conventions; opposes any increase in taxes; condemns free trade and endorses the administration of President Harrison. It was adopted with cheers.

A resolution endorsing Speaker Reed was read and greeted with loud cheers.

A resolution was adopted ordering the secretary of the convention to send a congratulatory telegram to Thomas B. Reed, formerly of Maine, but now of the United States."

The ticket nominated is as follows: Secretary of state, Milton Truesdell, of Fayette county; auditor of state, Col. L. N. Walker, of Marion; treasurer of state, George W. Pixley, of Allentown; attorney general, John H. Lovett, of Madison; clerk of the supreme court, W. T. Noble, of Wayne; chief of the bureau of statistics, John Warrell; judge of the supreme court, R. W. McBride.

SMOTHERED IN A BOX.

Shocking Treatment of His Children by a Mexican Indian.

EL PASO, Tex., Sept. 11.—News just reached here of a horrible accident which occurred ten miles below Pas del Norte, Mex., Sunday last. An Indian, living some miles down the river, left home on business Saturday evening, but before leaving he put his two children, a girl and a boy, between the ages of 4 and 5 years, in a large box, and nailed down the lid to prevent the children from getting into the orchard and eating the fruit during his absence.

The father did not return home until Sunday evening and on opening the box he found the boy lying dead in the bottom and the girl in a dying condition. The suffocating closeness of their prison, combined with hunger and thirst, had done its work. Frightened over the result of his brutal carelessness, the father endeavored to exonerate himself by concocting several inconsistent stories, but was quickly arrested by the authorities. It was the intention of the Indian to return to the children Saturday night, but was delayed.

A Peeling Accident.

BUFFALO, Sept. 11.—A peculiar accident occurred yesterday at the corner of Broadway and Watson streets, where a new building is in process of erection. Anthony Schnegold, who was at work on the third floor, lost his footing and fell. He struck upon the head and shoulders of Mrs. Matthews, of No. 310 Watson street, who was passing and then rebounded to the pavement. His hip was fractured, but the break in his fall undoubtedly saved his life. Mrs. Matthews sustained bruises about the body and a sprained ankle.

Athletes' Future.

NEW YORK, Sept. 11.—A Philadelphia special to The Sun says that the future of the Athletic club will be decided during the next twenty-four hours. Manager Barrie, of the Baltimore Association club, said that while the American Association will not pay the players, there are parties who will. He also said that the Athletic club would not be allowed to drop out of existence or be absorbed by the Players' League.

May Result in Murder.

CHARLESTON, Ind., Sept. 11.—Henry Smith is lying at the point of death in this city, resulting from a blow on the head from a bottle in the hands of Henry Warren, the only saloon keeper in this town. The brawl occurred during the fair, a week ago, but Smith's injury was not then considered dangerous.

Glanders Mules Kill.

TERRE HAUTE, Ind., Sept. 11.—State Veterinarian Knowles killed two mules belonging to George Stout, a farmer living nine miles south of this city. The mules had been afflicted with glanders for several months, and their cases were very clearly traced to the Sullivan county epidemic.

Eight Men Probably Drowned.

SAN FRANCISCO, Sept. 11.—Six of the crew of twenty of the poaching sealing schooner C. H. White were brought to this city by the steamer Kartuck from Sitka. While in the Russian waters eight men from the schooner were sent to hunt seal. A fog came up and the track of the schooner was lost. After rowing about for two days two boats reached Copper island and surrendered to the Russian officials. Nothing has been heard of the other men and it is feared they were lost.

Convict Confesses to Murder.

JOHNSON, Ill., Sept. 11.—Tom Harris, a three-year convict in the penitentiary, sentenced for burglary, hanged himself to a bar in his cell yesterday, but was found before life was extinct. On his pillow in the cell was found a confession that he was the murderer of the McCombs family in Minnesota a few years ago. Harris is only 10 years old, and is discouraged with his life. The penitentiary officials are reticent about the case.

Allison Not a Candidate.

NEW YORK, Sept. 11.—A Des Moines, Iowa, special to The Times says that, according to a Dubuque gentleman who is a political friend of W. B. Allison, the senator is not a candidate for the Republican nomination for president in 1892.

Maine Election Returns.

PORTLAND, Me., Sept. 11.—The voting of the vote of the state is: Burleigh, 63,565; Thompson, 44,841; Clark, 2,848; scattering, 936. Republican plurality, 18,721. The remaining places voted in 1888: Republican, 925; Democrats, 811; scattering, 106.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cures the system effectively, dispels colds, headaches and fevers and cures habitual constipation.
